

Report
Of
INTERNSHIP UI/UX DESIGNER

Submitted

To

School of Computer Science and Engineering

IILM University, Greater Noida, U.P.

In partial fulfilment of the requirement of degree of

B.Tech CSE

By

Roll Number of Student: 25SCS1003001122

Name of Student: VRISHTI TYAGI

Batch: 2025-2029

2026-27

CANDIDATE'S DECLARATION

I, __vrishti tyagi____ do hereby declare that the internship report titled “**INTERNSHIP UI/UX DESIGNER**” has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in CSE. All the references have been quoted and I have not taken as such any material from any other source. I affirm to you that this report is my own and has not been submitted to any other institute for any degree/diploma requirement and further I shall be solely responsible for any kind of copyright violation in this regard.

Signature vrishti

Student Name : VRISHTI TYAGI

Roll No : 25scs1003001122

ACKNOWLEDGEMENT

I am using this opportunity to express my gratitude to everyone who supported me throughout the Internship Program. I am thankful for their aspiring guidance, invaluable constructive criticism and friendly advice during this work. I am sincerely grateful to them for sharing their truthful and illuminating views on a number of issues related to this work.

I express my gratitude to my parents for their blessings.

Signature vrishti

PROJECT DESCRIPTION

4.1 Introduction

The Residence Verification Application is a digital platform developed to simplify the process of residence verification through an intuitive and user-friendly interface. The application enables users to manage verification tasks, track visit records, and access important information efficiently.

During my internship at **HelloAye** as a **UX/UI Design Intern**, I contributed to designing modern, user-centric interfaces that improve usability, navigation, and the overall user experience.

4.2 Organization Profile

HelloAye is a technology company focused on developing digital solutions with an emphasis on user experience and innovation. The organization follows modern design and development practices to create applications that are efficient, scalable, and easy to use.

4.3 Problem Statement

Traditional residence verification methods are often time-consuming and involve manual processes, leading to delays and inefficiencies. The project aims to provide a digital solution with a simple and intuitive interface that makes verification faster, more organized, and user-friendly.

4.4 Project Objectives

- Design a clean and user-friendly interface.
- Improve navigation and usability.
- Simplify the residence verification process.
- Create a consistent and responsive design.
- Enhance the overall user experience.

4.5 Scope of the Project

The project focuses on designing the user interface for the Residence Verification Application. It includes screens such as Login, Home Dashboard, Profile, Edit Profile, Verification Module, History, and Settings while ensuring a consistent and accessible user experience.

4.6 Technologies and Tools Used

- Figma – UI/UX Design and Prototyping
- Design Thinking – User-centered design approach
- UX Principles – Improving usability and accessibility
- Material Design & iOS Guidelines – Design consistency

4.7 System Architecture

The application follows a simple modular architecture where users log in to access the dashboard, perform residence verification, manage profiles, view history, and update settings. All user interactions are securely connected to the backend database for data storage and management.

4.8 Methodology

The project followed a user-centered design approach consisting of:

- Requirement Analysis
- Wireframing
- UI Design in Figma
- Design Review and Improvements
- Final Prototype

4.9 Expected Outcomes

- Improved user experience through an intuitive interface.
- Faster and more efficient verification process.
- Better navigation and accessibility.
- Consistent and scalable application design.

To Whom It May Concern,

Subject: Experience Letter — Vrishti Tyagi

Dear Vrishti,

This is to certify that Vrishti Tyagi has successfully completed an internship with Hello AAYE in the App Development Division, for a period of 3 months, starting from 23rd October 2025.

During this period, Vrishti demonstrated commendable dedication, technical proficiency, and a collaborative spirit. Vrishti actively contributed to live project modules, adhered to organizational standards, and consistently maintained a professional work ethic.

We appreciate Vrishti's contributions to the team and wish them the very best in their future endeavours.
